

LIST OF STANDARD & EXTENDED EXPRESSION MORPHS

- [INTRODUCTION](#)
- [STANDARD & EXTENDED EXPRESSION MORPH INDEX](#)
- [LEARN MORE: CREATE EXPRESSION MORPHS](#)

60+ | 140+ CATEGORIZED EXPRESSION MORPHS

Two levels of Expression Profiles are provided depending on the type of projects users choose. The 60+ morphs in the Standard level are compatible with most facial mocap such as ARKit, and are performance friendly for interactive XR or games. The 140+ morphs in the Extended level enable fine control over the nuances of the character's expressions, and are suitable for realistic production or AI driven digital humans.
